## **Atlantis Casino Resort Spa and Offsite Data Depot Sign Agreement for Document Management Services**

- Move Saves Atlantis Approximately \$6K/Month -

**CARSON CITY, NV** - - July 12, 2010 – Until recently, Reno’s [Atlantis Casino Resort Spa](#) leased secure warehouse space for storing administrative documents and gaming receipts. When it came time to destroy outdated documents, they hired a shredding service to come in about once a month to perform secure document destruction. In an ongoing effort to save costs and increase efficiency, the casino looked at other options and services.

Effective in May, Atlantis signed an agreement with [Offsite Data Depot](#) in Carson City for secure document storage, electronic inventory and document destruction.

Ron Rowan, Atlantis Casino Resort Spa CFO, said “Transitioning to Offsite has resulted in greater document security, convenience for our team and lower expense for our company.”

Gerd Poppinga, Offsite’s Director of Operations, added “We inventory and track every record electronically to guarantee an audit trail. We arranged all labor and transportation for the document move, and worked with Atlantis’ staff to ensure an accurate inventory.”

(continued)

Brian Olson, co-owner of Offsite mentioned “These days, every business is taking a harder look at their bottom-line. Like the Atlantis, companies from many industries are starting to figure out that they can save a significant amount of money while actually improving their records management by outsourcing to a professional records center like Offsite.”

### **About Atlantis Casino Resort Spa**

Atlantis Casino Resort Spa, a hotel casino in Reno, NV, features 61,000 sq. ft. of casino space, 1,000 guest rooms, eight food outlets, two espresso and pastry bars, a 30,000-sq.ft. health spa and salon with year-round pool, two retail outlets, an 8,000-sq.ft. family entertainment center, and over 5,000 sq. ft. of banquet, convention and meeting space.
